

Basic Histology

AT THE MEDICAL MUSEUM

WEDNESDAYS, 2:00 – 3:30 PM

SESSIONS WILL LAST 90 MINUTES

TARGET GRADES: 9th – 12th

Histology (the microscopic study of tissue) is an important element in the clinical and research fields of military medicine. Each month, NMHM will focus on a different topic related to basic histology practice, including lab safety. Students will use histology lab equipment and instruments to produce their own slide preparation. Activities will include: examining, staining, and embedding tissue; using a microscope; learning about dissecting and sectioning tissue.

Registration is required via application and space is limited to a maximum of 20 students. Attendance at all sessions is recommended. To request a registration form and for additional information, call 301-319-3312 or visit our website www.medicalmuseum.mil.
